

SECURIS

IT Asset Auditing, Recycling & Destruction

SECURE IT ASSET DISPOSITION. PROVEN SECURE VALUE RECOVERY. COMPLETE PEACE OF MIND.

One missed drive can become a breach, an audit finding, or tomorrow's headline. Securis helps make sure it doesn't.

Securis helps organizations securely retire IT assets while protecting sensitive data, maximizing asset value, and meeting the strictest compliance requirements.

For more than 25 years, organizations across government and commercial industries have trusted Securis to deliver secure, accurate, and sustainable IT asset disposition services.

WHY ORGANIZATIONS CHOOSE SECURIS

Security First

- Secure Chain of Custody
- On-site and off-site data destruction
- Triple Check process to identify missed data-bearing devices
- NSA EPL-listed equipment
- 32 CFR Part 117 compliant data sanitization

Trusted Where Security Matters Most

Trusted by the Federal Government, U.S. Military, Intelligence Community, healthcare organizations, financial institutions, and enterprise organizations to securely manage sensitive information.

Audit-Ready Accuracy

- 99%+ inventory accuracy
- AI-powered DriveSnap AI™ label capture
- Photo documentation
- Detailed audit-ready inventory reports
- Certificates of Destruction

Proven Secure Value Recovery

- Secure remarketing
- 120,000+ positive reviews
- 99.3% approval rating
- Transparent reporting

Reporting in Days, Not Weeks

- Average 3-7 business day turnaround for final inventory reports and Certificates of Destruction.
- Most competitors take weeks.

Sustainable ITAD

- R2v3 Certified
- Zero-landfill processing
- ESG reporting support
- Responsible downstream recycling

COVERAGE

COMPLETE IT ASSET DISPOSITION SERVICES

Secure IT Asset Disposition

End-to-end management of retired IT equipment with complete documentation and Chain of Custody.

Data Destruction

Certified destruction of all data-bearing devices, from physical shredding to digital sanitization.

Proven Secure Value Recovery

Recover maximum value from retired technology without compromising data security.

Electronics Recycling

Certified, environmentally responsible recycling that supports ESG initiatives and eliminates landfill disposal.

OEM Product Destruction

Secure destruction of recalled, obsolete, counterfeit, or defective products with documented accountability.

Data Center Decommissioning

Comprehensive decommissioning services for servers, storage, networking equipment, and supporting infrastructure.

THE SECURIS ASSURANCE SYSTEM

Every project is protected through multiple layers of security and verification.

Secure Chain of Custody

Every asset is securely tracked from pickup through final disposition.

Triple Check Verification

Three independent verification checkpoints help ensure no data-bearing device is overlooked.

AI-Powered Asset Identification

DriveSnap AI™ captures every label for accurate, audit-ready inventory.

Certified Data Destruction

Media is sanitized or physically destroyed according to your security requirements.

Audit-Ready Reporting

Receive inventory reports and Certificates of Destruction in an average of 3-7 business days.
